

Erratum for the paper J. B. Lasserre, D. Henrion, C. Prieur, E. Trelat. Nonlinear optimal control via occupation measures and LMI relaxations. SIAM J. Control Opt. 47(4):1643-1666, 2008.

Tillmann Weisser noticed that the indices of the second and third entry in the vector of initial conditions have been reversed in Table 5 (bounds obtained by LMI relaxations for Brockett's integrator). For example, the entry (2, 3) of Table 5 for the second LMI relaxation is for the initial condition $x_0 = (0, 2, 1)$, and not for the initial condition $x_0 = (0, 1, 2)$ as written in the paper.

Didier Henrion, Toulouse, November 13, 2015.
